Nowhere in your home is it more important to choose the right heating and accessories than in bathrooms and ensuites. The unique challenges of these wet areas mean performance and safety are paramount.
Goldair bathroom products are essentials. Practical as well as luxurious, they enhance any New Zealand bathroom.

Well-chosen, well-designed products add real value to your home and can help protect your linen, paintwork and fittings from excessive dampness.

Once considered a luxury, heated towel rails are a must-have for keeping your towels warm and dry.

Goldair heated towel rails are available in white or stainless steel, fixed or portable, in sizes to suit your space and at a price to suit your budget. With Goldair, all your options are covered.

We recommend installing any new heated towel rail with a timer to help you save electricity and money. Check out our new heated towel rail timer on page 10.
Square Bar Ladder
Towel Rail Series

Ultra-modern design combines with stainless steel in this sophisticated towel rail range.

The distinctive square styling and mirror finish is the perfect complement to elegant bathrooms and ensuites.

Features & Options
- Scratch-resistant finish
- Reversible wall mounting brackets
- Handy drying hooks
- Low running cost
- Colour options: Stainless steel, White powder coat
- 2 year warranty

These traditionally styled heated towel rails provide an affordable option for any bathroom.
Heated Towel Rails

Towel Rail Timer

There’s nothing quite like a warm, dry towel waiting for you when you step out of the shower, but the cost of running any heated towel rail can add up – especially if you leave it on all the time.

Without a timer, a heated towel rail costs around $175 a year to run, if left on for 24 hours a day. When installed, the Goldair Heated Towel Rail Timer still gives you a warm, dry towel but can cut the annual running cost of your towel rail by up to two thirds or $115 a year.

Energywise partnership
Goldair is proud to be an EECA ENERGYWISE™ Programme Partner. ENERGYWISE™ supports the use of timers for heated towel rails to reduce your electricity use.

* Based on 25c per kWh, 24hr use (80w towel rail)
The right heating and ventilation systems are essential for the health and wellbeing of you and your family.

To keep your family warm and to protect against excessive condensation, you need the right solutions. It helps if they also look good and seamlessly integrate with your bathroom. With Bathroom Heaters and Heat/Light/Vent units, Goldair has multiple solutions for your bathroom heating and ventilation needs.
Goldair is the market leader in bathroom fan heater solutions and offers the largest range in New Zealand. The new GBH bathroom heater series incorporates the latest safety standards for New Zealand.

Goldair bathroom fan heaters provide an even heat with options to suit all bathrooms, ensuites and laundries, enhancing personal comfort and improving room functionality. Their reliability and safety make them New Zealand’s most popular bathroom heating choices.

Clean, uncomplicated lines and a range of finish options complement both traditional and modern décor.

- Easy-as mounting system
- Pull cord switch
- Automatic step down thermostat
- Colour options:
  - Grey with stainless steel inlay
  - White with stainless steel inlay
  - White with gloss white inlay
  - White
- 1 year warranty

Easy-as mounting plate
Mount onto any existing flush box or concealed wiring structure leaving you with a neat and tidy flush mounted bracket with all the wiring concealed. Simply slide the heater onto the Easy-As Mounting plate and you’re ready to go.
Heat/Light/Vent Units

The new Goldair range of Heat, Light & Vent units have been designed and engineered with New Zealand bathrooms in mind. With all of your heating, lighting and ventilation functions in one unit, they are a fantastic option for your bathroom.

- Thermal fan integration
- 2 Light model colour options:
  - Silver
  - Gloss white
- 4 Light model colour options:
  - Silver
  - Gloss White
- 3 metres of aluminium ducting
- 2 year warranty

Uses 90% less energy than a standard incandescent bulb

*5.5W LED vs 60W Incandescent lamp

Interchangeable white + silver coloured fascias included in box. Now you can match the vent to your bathroom decor.

Kiwis love their Goldair
A bathroom scale is essential in maintaining your healthy weight and wellbeing.

Research has proven that self-weighing daily, rather than once every week or month, can be associated with lower body mass index levels.

For the most accurate bathroom scale results, step onto the scale, stand completely still and count to three.

Moving around and shifting your weight while standing on the scale may cause inaccurate readings.

Once you step onto the scale, do not move until your weight is locked in and displayed on the digital display.
Bathroom Scales

Contemporary design to compliment existing sleek stylish bathrooms

Contemporary styling and practical functionality combine in these Goldair electronic bathroom scales. available in décor colours; classy black, or timeless frosted white glass.

Feature & Options

- High precision sensor system
- 6m tempered safety glass platform
- Auto zero resetting/power off
- Low battery/overload indicator
- 180kg scale with 100g increments
- Lithium battery (included)
- 2 year warranty

Space-saving, low profile. 6mm tempered glass

High precision sensor system. Foot tap zero reset switch

Accurate results. Easy-to-read digital display.
